

How To Install AdblockPlus On Firefox

1. Open your Firefox and navigate to adblockplus.org
2. Click on get adblockplus button Firefox. (It should detect your browser but see the link below the green button to find your appropriate browser if it has not detected it).
3. Click on add to Firefox
4. Adblockplus will appear in upper toolbar to right. This lets you know it has been installed.
5. This will ask for an optional donation for the service.
6. Click on the Adblock Plus.

7. To change the settings, press the Adblock Icon and hit the gear symbol and uncheck "Show acceptable ads."
